

TECHNICAL DATA SHEET

Product Specification

Parameter	Specification
Product Name	COLUMN PIPE ADAPTOR CI 2-1/2
Model	RDP0209
SKU	RDP-CI-AD-HY-65
Size	65 MM
Length	42 CM
Thickness	7 mm
Colour	BLACK
Material	Cast Iron
Minimum order	1 piece
Boxed	8 pieces to a box
Weight	5400 GRAM
Origin	Made in India

About this product

The COLUMN PIPE ADAPTOR CI 2-1/2" is a cast iron adaptor with a CNC-machined threaded connection, designed to connect compatible column pipe assemblies with suitable delivery-side components. Its 65 mm size, 42 cm length, and 7 MM thickness make it suitable for compatible submersible pump column-pipe installations and servicing.

Key features

- Cast iron construction
- CNC-machined threaded connection
- 7 MM thickness
- Designed for compatible column pipe assemblies
- Suitable for submersible pump installations and servicing

Applications

- Submersible pump installations on bore wells
- Column pipe to delivery-head connections
- Pump servicing and re-installation
- Replacement of a damaged column-pipe adaptor

Benefits

- Provides a threaded connection between compatible column pipe and delivery-side components
- CNC-machined threads support consistent assembly
- Cast iron construction provides a substantial mechanical connection
- Suitable for pump servicing and re-installation
- Can be inspected and reassembled when threads and mating components remain undamaged
