

TECHNICAL DATA SHEET

Inline Drip pipe Aquaflow series 16 MM

Parameter	Specification
Product Name	Inline Drip pipe Aquaflow series 16 MM
Model	RDP1508
SKU	RDP-AF-IL-16-500
Size	16 MM
Length	500 meter appx
Colour	BLACK
Material	LLDPE
Thickness	1.2 MM
Spacing	40 cm
Weight	14000 GRAM
Origin	Made in India

Product Overview

The drip irrigation product is designed for controlled water delivery in agricultural and horticultural irrigation systems. Product-specific emitter spacing, wall thickness, length, and operating specifications should be selected according to the individual variant.

Key Features

- Designed for drip irrigation
- Suitable for agricultural and horticultural applications
- Product-specific emitter and spacing options
- Available in different lengths and constructions

Applications

- Vegetable crops
- Orchards and horticulture
- Nursery applications
- Field irrigation

Benefits

- Supports targeted water delivery
- Suitable for crop-row irrigation
- Variant selection allows matching to crop and system requirements
