

TECHNICAL DATA SHEET

Inline Drip pipe Ultraflow series 16 MM

Parameter	Specification
Product Name	Inline Drip pipe Ultraflow series 16 MM
Model	RDP1511
SKU	RDP-UF-IL-2.0-16-400
Size	16 MM
Length	400 Meters Approx
Colour	BLACK
Material	LLDPE
Thickness	2 MM
Spacing	40 cm
Weight	17000 GRAM
Origin	Made in India

Product Overview

The drip irrigation product is designed for controlled water delivery in agricultural and horticultural irrigation systems. Product-specific emitter spacing, wall thickness, length, and operating specifications should be selected according to the individual variant.

Key Features

- Designed for drip irrigation
- Suitable for agricultural and horticultural applications
- Product-specific emitter and spacing options
- Available in different lengths and constructions

Applications

- Vegetable crops
- Orchards and horticulture
- Nursery applications
- Field irrigation

Benefits

- Supports targeted water delivery
- Suitable for crop-row irrigation
- Variant selection allows matching to crop and system requirements
